

**CAMPSITE ACCESS - LARGE VEHICLES** - Enter from the north access via the North Rexburg exit and go west on 3000 North. *We recommend those with large trailers should enter from the north* since it is easier to get through the gate from this direction without running over our neighbors sprinklers.

There is a new round-about at the corner of 2000 East and 2000 North (see circle). It is still easier to travel north to the new 4-way stop at 3000 North and turn left. Travel west to 4000 West and then go due south to the Rabbitstick gate.

Those coming from I-15 via Hiway 33 can turn north at 3000 or 2000 West and go north. Hiway 33 turns into Rexburg Main Street at the new X interchange under Hiway 20. Note - There is also a new round-about at the intersection of 2000 North and 3000 West.
