

WOULD YOU MISS THIS RABBITSTICK?

Imagine...

The sun is beginning to set, casting a golden glow over the expansive meadow. You hear the soft hum of the river, gently flowing nearby, provides a soothing background to the scene. The air is fresh and crisp and the forest of aspens are quaking.

You walk through the meadow, the grass soft beneath your feet. Tents and campers are scattered around, each one a cozy dwelling for the nights ahead. People are mingling, sharing laughter, you are reuniting with old friends and making new ones.

As dusk falls, a bonfire is lit. The flames dance and crackle, their warm glow drawing everyone in. The community gathers around, forming a huge circle while drums of various sizes are brought out and soon rhythmic beats fill the air. The drumming is primal and hypnotic, a heartbeat that connects everyone.

A dance begins naturally, almost instinctively. Your feet move to the drumming rhythm, your body sways, and a sense of unity and joy spreads though the circle. The flickering firelight casts shadows that dance along with the people, creating an almost magical atmosphere.
